## DETAILED ACTION

### *Election/Restriction*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9 and 11-20, drawn to a recording sheet, classified in class 428, subclass 195.
  - II. Claim 10, drawn to a coating composition, classified in class 106, subclass 505.
2. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as mutually exclusive species in an intermediate-final product relationship. Distinctness is proven for claims in this relationship if the intermediate product is useful to make other than the final product (MPEP § 806.04(b), 3rd paragraph), and the species are patentably distinct (MPEP § 806.04(h)). It is noted that there is a compositional difference between the inventions of I and II, namely, that there would be no solvent present in the article of invention I. As such, the intermediate product is deemed to be useful as an anti-slip coating, and the inventions are deemed patentably distinct since there is nothing on this record to show them to be obvious variants. Should applicant traverse on the ground that the species are not patentably distinct, *applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case*. In either instance, if the examiner finds one of the inventions anticipated by the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. A telephone call was made to on to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1774

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

*Conclusion*

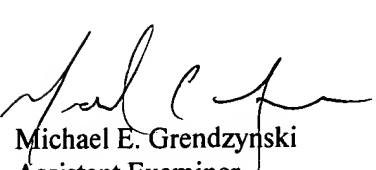

5. Should you have any questions concerning this communication, please direct them to Michael E. Grendzynski at telephone number (703) 305-0593.
